

ERD 9S

ERD 9S drill is designed to withstand the demands of the plant hire industry, combined with light weight preferred by the utilities & local authorities. The ERD9S strikes a balance between performance & durability. Silencer for effective noise suppression.

DM11S demolition tool is widely used in the construction & plant hire industries for general demolition work & removing concrete build up. The DM11S is an effective, light weight & manoeuvrable tool for working in confined spaces.

DM11S

1615VR

1615VR rock drill is lightweight, compact and ideal for pop holing, gas work and excellent for confined spaces. It is designed for hand drilling holes suitable for blasting operations in mines and quarries. It can be used on rocks of varying hardness.

Model	ERD9S	DM11S	1615VR
Weight	3.6kg	10.9kg	17.5kg
Length	368mm	510mm	645mm
Frequency	3400bpm	1620bpm	2200bpm
Air Consumption	22cfm	30cfm	86cfm
Vibration	5.3m/s ²	-	6.7m/s ²
Noise Level	113dB(A)	-	117dB(A)
Working Pressure	6bar/90psi		
Bore	-	40mm	-
Stroke	-	89mm	-
Air Hose	19mm		
Chuck Size	19mm	22mm	22mm
