

**TPP-10****2001600**

Teesin hydraulic hand saw system is an effective and efficient way to produce a controlled demolition work to its required dimension. It use mainly in partial demolishing of parapet wall for lift, wall window and door installation. It use water cool system to enhance fluid power efficiency. Well balanced ergonomical designed handle. Adjustable blade guard to allow cutting entry from various angles.

Model	TPP-10	2001600
Weight	165kg	14kg
Flowrate	33L/min	
Pressure	172bar / 2500psi	
Motor Class	IP55 Class F	-
Power Source	Electrical Starter	-
Voltage	415v	-
Rated Current	14.3A	-
Power Source	10Hp/7.5kW/3Phase	-
Arbor Size	1 inch	-
Wiping Size	510mm	-
Cutting Speed	2300rpm	-
Dimension(HxBxW)	850x800x520(mm)
