

**CTAG-007**

CIMAR tractable walk behind angle grinder uses a rigid structure holder to increase the stability of the angle grinder during operation. It provides the operator with comfort in performing conventional hand grinding job with ease by using an ergonomic tractable cart design for the angle grinder. The tractable cart can be adjusted to various height to suit the operator. It is also design with anti-vibration mechanism to reduce fatigue level of the operator while using it.

Model	CTAG-007
Weight	34kg
Dimension (LxBxH)	1250x520x640(mm)
Rated Power	2000w
Volt	230v
Output Power	1250w
Rated Speed	8500rpm
Grinding Disc Max Diameter	180mm
